

30 Days to Success and Inner Peace: Leveraging The Power of Positive Thought, Habit, and Ritual (Self Help, The Power of Positive Thinking)

I cant do it! It cant be done! People will look at me and think that I am dumb. I wont have any friends. It will be too hard to get anything accomplished if I make that decision! Are any of these phrases and comments familiar to you? Do you hear yourself uttering these phrases throughout the course of your day or even worse do you get these uttered to you from yourself, friends, family or others in which you deal with on a daily basis? Well if you are reading this book I can safely say that the odds are that you probably have heard or even uttered one or many of these phrases before. For most people it is a common occurrence and one that we have more than likely dealt with since we were children. Well if this is the case than today is the day that it is going to stop. In this book I am going to lay out a foundation and action plan that you can use to change your life for the better. When you complete this book you will have the tools necessary to accomplish anything you desire and have a more positive outlook towards the future as well as an action plan that you can look at and move forward with. When you finish this book you will have the power to change your attitude and response towards people who are just out to make themselves feel bigger by making you feel small. Good luck and I hope you take this book to heart and live the life you have always wanted to live!
