

Was Jesus Christ Really Resurrected? An Objective Analysis of the Compelling Evidence

The resurrection of Jesus Christ is central to Christian belief and to the Christian hope. Christians believe in the resurrection of Jesus Christ from the dead, because the Old and the New Testament teach it, because Christ promised it and because His apostles confirm it in the New Testament writings. Contrariwise, Atheists, Agnostics and others assert that the resurrection is a fable concocted by Jesus followers, because their attachment to Jesus memory was so strong that they all agreed to create a new religion in His name based on lies and deceit. As this book will show, the evidence for Jesus resurrection is not based on flimsy fables, but on the unassailable evidence of solid logic, many totally reliable and truthful witnesses and plain common sense.
