ALATYA BEYOND SONE-REMA

Book 4 In this, the fourth Alatya novel, Alatya, Barret Cole, and Shanee travel to back to Furbian space to discover that a Furbian Black Sun investigative team has invaded the Tosciuman mines suspicious of Mountain Four-Hands Overseer presence. The three, accompanied by Voctan Councillor Karbole become involved in the battle to regain control of the mining planet. The cause of the trouble, disgraced former CIS Investigator Grier Tench flees Tosciuman with the Hyale keeper Dryden to Sone-Rema when the Black Sun forces are defeated. The Terran ship under the command of Barret Cole defeats the black Sun Scout vessel Antioc captained by Chian Karlse-Han former first officer and forces it to retreat back to Furbia via Sone-Rema. Alatya and Karbole discover the possible plans of the Furbian Council to re-ignite the Kingdom Wars. This gives Alatya a perfect excuse to take Bonna Venture to Sone-Rema and fulfil a vow to the late Gerard Dee that they attempt to discover if any of the marooned crews of his ship Venture, and the Furbian Warship has survived. What they discover there is a settlement of embittered castaways lead by the former medical officer Stephanie Matthews who believes that Gerard Dee betrayed them by failing to send help. She rejects Alatyas attempt to repatriate them back to Earth, although some of the survivors and their descendants wish to leave. Intent on freeing them, Alatya and her friends discover that mind-sucking Hyale are bred in the caverns below the settlement, and they instrumental in the creation of the clone armies Furbia is renown for. Alatya frees the survivors and destroys the clone factory but their escape is marred by an Hyale draining Shanees mind while she defended their retreat. Fern the Bonna Venture computer persuades Alatya to transfer her entity into Shanees mindless husk and become as close as

human as she can ever be. Returning to Vocta, Alatya is forced to take the unwanted office of Council Marshal to earn enough credits to upgrade the ex-pirate ship Aksus which she has taken over. This comprises of a list of outland despots who must be overthrown. Once Aksus is complete, Alatya intends to set off to Furbia and attempt to prevent the looming war threatening on the horizons of space.
