

An Easter Trilogy: The Biblical Link - Eden to the Resurrection

Easter is quite possibly the most celebrated day on the world's calendar. Yet, this great day of remembrance does not stand alone. This day is significant because of two other events. These events form a triad or Trilogy in the spiritual life of the Christian experience. Easter, after all, was not necessary except for what happened thousands of years before. In this Easter Trilogy, the author takes a look at three gardens and the link between them: the Garden of Eden, where mankind decides to go it alone; the Garden of Gethsemane where God reveals His plan to bring mankind back to Himself; and the Garden of Resurrection where death is finally conquered by life in Jesus Christ. This short but powerful study brings together the most significant Scriptural verses referencing Easter both in the old and new testaments to give us a multi-dimensional view of this singular event in history. Lastly, the author puts forth a challenge to us today: how will we respond to the offer given by God and cemented by the resurrection of Jesus Christ?
