

Zombies Behaving Badly

A CASCADE OF DEATH SWEEPS through a small town, and a quaint funeral home is at the center of the problem but its not about the dead people there its that some of them arent exactly dead. Fifteen-year-old Peter Livingston lives in the funeral home, but he doesnt know about its gruesome connection to a maximum-security prison some of the prisons not-dead inmates are not-alive either. Shadows Prisoners is filled with horror and cliffhanger chapters and its a real page turner. In between the disgusting (rats) and the ugly (corpses) and the evil (plotters and schemers), there are also glimpses of warmth and humor that encourage the reader to stay hot on the trail with Peter, armed only with a flashlight, searches through everything and anything to solve the mystery. Who or what is killing so many animals and people in his town? Theres the doctor who rides a motorcycle through town to take care of his patients. Theres the teacher who is a recycling fiend. Theres Peters father who is struggling to keep the old mortuary from becoming as dead as its clients. Theres Peters uncle who understands, more than anybody else, why it is necessary to brave the worst to discover the unnatural truth. And theres the FBI agent who is forced to accept things way beyond his skill-set. And these are all the good folks. Ultimately, this situation is for the birds well actually a very special bird who lives with Peters family and causes no end of havoc.
