

Professional development is akin to engineering. It involves a specific set of steps that when acted on create a specific outcome. In the case of professional development the outcome is a greater level of personal capability to perform. This material takes you step by step through the process of professional development. In addition, it provides literally hundreds of examples of different competencies and skill sets to sharpen your focus. Take charge of your own development. Take control over your own performance. Take ownership of your opportunities. Take your success to the next level.
