

Current Issues in International Trade (Current Issues in Economics S)

This revised and updated version edition of this successful text takes into account developments since the first edition, which was published in 1985. It contains 9 specially commissioned essays by leading experts from around the world in the field of International Trade and looks at both the theoretical and policy issues of the subject. A new chapter has been added on Strategic Trade Policy and many of the other chapters have been extensively updated and rewritten.
