

Steele Crossings

Steele Crossings, by M.Trizila, is a fast paced, action thriller romance with a hint of mystery that highlights the wholehearted, single-mindedness of those who dedicate their life to preserving the freedoms enjoyed in our great country at all costs. Nick and Miko would leave 007 in the proverbial dust as they fight, laugh, and love within and through familial and national ties while they are making the seas a better place to sail and the world a safer place to live.
