

“Scanning over the reviews of this book which you have already received, I see that all the good superlatives have already been ably employed; the richness of praise so opulent and resounding that even a great big word freak like myself is hard put to say anything that would glitter for an instant in the clamoring tide. So, all I can say is that I love this book as much as I love all of my favorite science fiction books, and that’s a quantity that defies quantifiers. Everything in this book is perfect. The ending is perfect; the villains are perfect; the characters and images and settings are perfect. I, too, could barely put it down. And I want to also say, thank you.” —P. Deering
