

The Identity Thief

Computer crimes are impersonal and the perpetrators are seldom apprehended. So thought young Conrad Graves as he embarked on a career of bank transfers and identity thefts. His big mistake occurred when he adopted the identity of a man, not only wanted by the FBI, but by the mob whom he had double-crossed. Conrad eventually seeks refuge in Guyana where he has established an offshore account. He meets the two lovely daughters of his banker and he must choose between them. Meanwhile, he has the FBI and the mob to worry about. This is a rousing adventure with sex and violence.
