

The Beginning and End of the Earth as We Know It

I have a friend who recently told me that the Lord has to return this year because he cant hold out any longer. Others want to know when he is coming so they can slack off until that day. My reaction is radically different. The more facts that we learn about the end of the age, the more motivated we should become. Many Christians have the point of view that he hasnt returned in 2,000 years so there is no reason to believe that he will return in their lifetime. These people are in for a shock. Have you ever wondered if there was any way to tell when the world will end? Does it puzzle you why the Magi knew when Jesus came the first time and yet we are told that we cant know when he will return? John Pyles seeks to prove that we can indeed know the course and timetable of end-times events. Using a series of biblical clues, John establishes a timeline for Creation, the birth of Christ, and His Second Coming. We truly can know and understand The Beginning and End of the World as We Know It.
