

Lost Boy- Bipolar Dreaming

A silver lining in the storm clouds of mental illness and suicide. Mental health issues touch all of us who live in the human community. In *Lost Boy: Bipolar Dreaming*, Jocelyn Price tells the story of her journey with her son (Cameron suffered from bipolar disorder and eventually suicided). She writes of his dreams, his good times and his not so good times. Told through the veil of a mother's compassion, dawning consciousness, receptivity, understanding, acceptance and strength to go on in life with peace, we see Cameron as a person with a unique purpose in life, a purpose that is no way diminished by the manner of his death.
