Did She or Didnt She?...In a Perfect Crime, the Evidence May Be Hiding the Truth: What started as a carefree sailing holiday has ended in terror and disbelief for Stan and Emily Breedlove as they find themselves trapped and helpless in the dead of night, their boat buffeted without mercy by an angry sea and torrential winds. Stan now clings to life after being medevacd to Trinity Regional Hospital. He is in a coma and not expected to live despite excellent care by the hospitals diligent staff. The Countywide Police Department is convinced that Dr. Emily Breedlove, Stans wife of over thirty years, is responsible, and they dont think she acted alone. Sgt. David OMalley and his Countywide team are determined to discover the evidence that will prove them right. Paul Stempler, the Breedloves attorney, is racing against the clock to counter OMalleys efforts. Is his client innocent, or is she the victim of a multiple personality disorder? Stempler doesnt have a clue and must rely on his skill and instincts in trusting an aging sea captain, his young first mate, and a small-town librarian to sort out the truth -- a truth that will elude them until they can discover a way to pick apart the shroud of treachery and deceit that surrounds it. Set in the northwest Florida panhandle in and around Pensacola, Florida, and the Perdido Key-Gulf Shores area, Red Right Returning is a story of intrigue, deception, and providence that will keep you guessing to the very end.
