It is an extraordinary and secret power which she and her father, the Emperor of Xayall, guard with their lives. The Dhakra, malicious red-scaled dragons, have discovered an ancient artefact; a mysterious relic from the mythical, aeons-lost city of Nazreal. With their plan already set in motion, they besiege Xayall, pummelling the city to find Faria and rip more of Nazreals secrets from her. When her father goes missing, Faria has to rely on her own strength to brave the world that attacks her at every turn. Friends and guardians rally by her to help save her father and reveal the mysteries of the ruined city, while the dark legacy of an ancient cataclysm wraps its claws around her fate... and her past. She soon realises that this is not the beginning, nor anywhere near the end. A titanic war spanning thousands of years unfolds around her, one that could yet cost the lives of everyone on Eeres.
