

# MATLAB SOFTWARE FOR CHEMICAL AND PETROLEUM ENGINEERING (PART FOUR): MATLAB SOFTWARE FOR CHEMICAL AND PETROLEUM ENGINEERING

In this work provide alotof examples in different fields of chemical engineering and how to design accurate solutions by using MATLAB soft ware. Chapter 1 provides 24 examples to undergraduate students how to inter and use Matlab soft ware to solve the problems. Chapter 2 provides 3 examples in fluid flow includes different problems and how to solve these problems by programming. Chapter 3 provides 8 examples in heat transfer how to solve these problems by programming. Chapter 4 provides 22 examples in modeling, thermodynamic, material balance and chemical reaction design includes different problems with different applications and how to solve these problems by programming.
