

## Morning Glory Ever After The Story Continues (Morning Glory Diary of an Alien Abductee)

Morning Glory Ever After The Story Continues published 10/15, is a sequel to Morning Glory Diary of an Alien Abductee. In January 2001, My secret life was revealed when Morning Glory Diary of an Alien Abductee was published. Amazingly, I succeeded in reaching the one abductee I had intended to reach through my diary. I brought realization of this phenomenon to non believers. I wish to reach even more alien/milab abductees and the human populace through Ever After the Story Continues. Written in diary form contains not only my memories of abductions with these universal entities, and military rogue governments. Contracts that were signed by both entities (alien species and humans) within each sector of governments, world-wide, on planet earth. Ever After The Story Continues describes who I feel took my husband in death. You will live along with me as you read further abduction experiences devised by the many universal entities and military rogue government and how they left me feeling powerless and leading a fearful life. The reader will read how even change in my new life led me into a different road of life of investigations into the 1947 Roswell, NM Crash and who was discovered to validate this known truth that occurred in Roswell. I was invited to join two well known researchers/investigators in this research. I have also brought forth into this new book my investigations of a few of my clients who underwent hypnotherapy as I guided them. Showing the reader the vastness of affects of this abduction phenomem. I cannot say enjoy and have fun with these two books but learn as you read the final version of my diary Morning Glory Ever After The Story Continues. Gloria Hawker, author
