

The Masks of Lesser Magic (The Apophis Club Lesser Magic Series) (Volume 1)

Lesser Magic is the practice of creating change in the world, yourself and others, and getting what you want, through the application of little known psychological and manipulative techniques, informed by occult wisdom. You project a different persona depending upon the various situations you find yourself in during the course of a day. If speaking to a child, you will speak and behave very differently than if you are speaking to your bank manager, or to your boss at work. This adoption of a specific personality mask is usually done automatically and subconsciously, without us even being aware that it is happening. The aim of this first book in The Apophis Club Lesser Magic Series is to help you recognise and practise some of the more common and useful personality masks, and learn the kinds of situations when you might adopt them. In this way, you can make the personality that you project a conscious choice rather than a default subconscious one. This will enable you to take control in a situation where you might ordinarily have been subservient, or present yourself as exactly the type of person your target needs right now.
