

## Abstract Perception

If there was ever a time where you felt a book spoke to your every emotion and experience in life, it would be Abstract Perception. Audeo Piouz (also known as AP and Pzo) has been writing and performing his spoken word since junior high, having been compared to the writing of Langston Hughes and the philosophy of Malcolm X. Never holding back thought or spirit, AP is one of the 21st century's rising and revolutionary contemporary poets that has earned his place as the fifth member of the Legendary Griot Nation. With the kindness of heart of Maya Angelo to the ferocity of Malcolm X and the visionary eloquence of Martin Luther King, Jr., Abstract Perception seeks to open minds to the wrongs of the world, show the dedication and hard work many push through daily only to earn very little in pocket and life, and move readers to understand what lies underneath the misconceptions of money, greed, and stereotypes. If you seek truth about life to its inner core, Abstract Perception delivers.
