

## Ritual Magic for Conservative Christians

More Power for Living! Christians have practiced magic since the dawn of Christianity, and almost all classic magical texts since the Middle Ages have Christian authors. With this book, you can tap into that power! You'll learn: - A theology of magic that embraces all mainstream Christian denominations. - A curriculum for training yourself in the magic art. - An organized method for calling the Choirs of Angels. - How to create, consecrate, and use talismans and amulets. - A powerful system for creating your own magical rituals. - Multiple fully-functioning example rituals. - Practical advice to make your magic even more effective! Between these pages you'll find the most potent manual yet for Christian magicians who want to retain their orthodoxy and more deeply understand their faith as well as their practice. Manifest with orthodoxy. Believe with power. Grow with awesomeness!
