

## The Big Bad Book of Ghosts

Three hair-raising collections of haunted horror stories are combined into one volume for fans of history, folklore, and real-life scares. In the offerings from Covered Bridge Ghost Stories, some of the nations most historic covered bridges serve as the setting for tales of hauntings from Georgia to California. The tales in Dog-Gone Ghost Stories offer answers to the spine-chilling question If there are people ghosts, why not dog ghosts? And Lighthouse Ghosts and Legends investigates real spooky tales of spirits seen and felt in lighthouses across the country.
