

# Master of Engineering Education Engineering Development Report Series: Master of Engineering Education integrated circuit engineering development report(Chinese Edition)

Paperback. Pub Date: 2011 Pages: 336  
Publisher: Zhejiang University Press  
Engineering Education of Master of Engineering Development Report Series: Master of Engineering Education Integrated Circuit Engineering Development Report Master of Engineering in the field of integrated circuits engineering education collaborative group commissioned to write by the National Engineering Graduate Education Steering Committee. introduced the development status of the more than 10 areas of the integrated circuit engineering disciplines. The book is composed of 12 thematic report by topic. The theme of the report so that readers classification of integrated circuits. an understanding of the development of history. industry. and other aspects of the whole picture. then the thematic report of the technical progress of the related fields. including integrated circuit device manufacturing pro...
