

## The Savvy Sorcerer

Advanced Manifesting techniques (and pitfalls) - This book will help coach those interested in conscious creation /manifesting. It makes authentic magik easy... Quick Example: TRY THIS EASY MIRACLE NOW! (Seriously) ---> Walk outside and pick two fluffy white clouds. Now paint one of them blue with your mind, and soon it will completely vanish while the control cloud remains totally intact. This works because nobody has any notions about the solidity of a cloud. Try to dissolve a brick in a similar way, and you encounter the minds of everyone who has ever seen, heard of, or touched a brick. Try to dissolve the cloud in front of friends and you invite skepticism which can pollute and/or cancel your magik. (IMPORTANT) Really do this. Even a novice can do this every time. Just be alone to prevent the pollution of skepticism. Did you know Rhythmic Breathing can double your psychic energy/Prana? This book is filled with ways to amplify and focus your magik. (We prefer spelling Magik with no c, as it is not stage variety) This book will also show you legitimate possible dangers in using the lesser Law of Attraction, such as how placing someones mansion on their vision board could cause the family living there financial hardship, illness, or even death so the home is vacated in time for their deadline. They only wanted a house, but managed to kill a family and incur karmic wrath in their miss/untrained process. This is an exaggeration, but the point is valid and possible. Magik can be dangerous unless you are trained to avoid negative imagery and use correct wordings, as all thought is prayer and every word is a magik spell. If you think your mother has moved into a bad neighborhood, then she could be attacked just to satisfy that prayer/random stereotypical belief/thought/expectation. They all work with the same mechanisms. ALL

THOUGHTS AFFECT REALITY. Not just the thoughts we pick and choose during prayers and affirmations. The book is advanced. You will NOT learn many of the secrets here in other books. See for yourself in the free 10% preview. Many of you think that if you pray or affirm for something then a god is listening to you, and may provide it for you if you are deemed worthy. The truth is that we are ALL god... collectively! Being a portion of god has its privileges however... It means we can alter our reality through the use of our imagination. The simplified idea behind Hermetic Magik is simple. Nothing is real. Do you feel real? You're made of atoms that are mind-bogglingly empty? Atoms are 99.9999999999% empty space? You are only 0.0000000001% real, and that is best case scenario. The Buddhists, The Hindus, The Wiccans, Ancient Egyptians, and even the people of Atlantis (according to Thoth) all live under the same religious philosophy, that we live in a PERFECT Giant High-Definition mind of a deity in which we are all a part. Time also flows (collapses) backwards which is important to magik. This is proven in an experiment entitled The Delayed Choice Quantum Eraser. How does the past changing affect our magik? This is how it works. Imagine you are drowning in the ocean and you are a skeptic... Then you would die. NOW - Imagine that you are drowning in the same ocean but have faith in your magik or a god of some kind. Suddenly! Three days ago... (IN THE PAST) (IN THE PAST) a cruise ship receives a different weather report and must now alter course. Its now perfectly aligned with your rescue in three days. You could still be at home packing for your sailing trip the following day, and yet a cruise ship and 3000 passengers have already revamped their superposition to align with your rescue. Look at your synchronizations to see if they were scheduled prior to your affirmations or prayer. Affirming for a parking spot reminds a mother an hour ago that she is running late.
