

Tilting at Windmills: A Novel of Cervantes and the Errant Knight

In seventeenth-century Valladolid, Spain's new capital, Miguel Cervantes is busy writing his comic masterpiece, *Don Quixote*, which is being issued in installments. It is quickly making him the most popular author in the country, when three potential disasters strike: Cervantes discovers that there is a real Don Quixote, just like the character he thought he'd invented; a jealous poet concocts a scheme involving one of the novel's other characters to make Cervantes a laughingstock; and Cervantes falls in love with a beautiful, widowed, but un-available duchess. Many duels, misunderstandings, politicking, and betrayals later, *Don Quixote* himself comes to Cervantes' rescue. This sparkling tale of crazed knights, thwarted love, and literary rivalry is set against the background of a mighty empire suffering from a century of reckless wars and a ruling hierarchy stultified by patronage and ritual. Peopled with an engagingly idiosyncratic cast that ranges from a Machiavellian duke to a misanthropic poacher, this charming story is imbued with the spirit, verve, and humor of the great novel to which it pays playful tribute. *Tilting at Windmills* is a dazzling evocation of Cervantes' life and times, and a brilliant weave of fact, fiction, and farce.
