

Nobody expects to lose a child but when it happens what can we do? In the sea of grief that seizes the soul how can we swim against the tide? But when that loss is compounded in each minute of every day, what do we do then? *Slings and Arrows* is a story about the consequences of a moment, a moment, which separates a mother and daughter in ways impossible to imagine. It charts their parallel lives, each suffering, one knowing, one not. It is brutally honest; an account filled with bewilderment, guilt, anger and pain yet it also holds the key to hope. That whatever happens, the bonds of love can never be broken. This story was so powerful and wrought with many emotions and conflicting beliefs. Susanna Mahoney ...account of events that would have sent many of us to the brink of madness... BookAddict A powerful book! Martha What could have been a purely bleak read proved to be a thought provoking and, in, many ways, inspirational experience. A. E Thomas
